

PRO Series

Designed to last a lifetime (or two), Manduka PRO series yoga mats curb the amount of PVC mats that enter landfills every year and reduces overall mat consumption. During the manufacturing of most PVC products, toxic emissions may be released into the air. However, PRO series mats are manufactured through a process that ensures no toxic emissions are released into the atmosphere. The Black Mat PRO is certified safe for human contact by OEKO-TEX, an environmental certification agency in Europe for the textile industry.

Manduka PRO Mat

RM509

- Standard: 7.5 lbs; 71" x 26"; 6 mm thick
- Closed-cell surface to keep moisture and sweat from seeping into the mat and breeding bacteria (ideal for hot yoga).
- High-density cushion for unparalleled experience, joint protection, and versatility on any surface (carpet, cement, hardwood floors).
- Fabric-like surface finish for optimal movement between poses.
- Sustainable engineering ensures high quality material will not peel, flake or fade. Product improves with use over time.
- Proprietary dot pattern bottom to resist sliding.
- OEKO-TEX certified, emissions-free manufacturing.
- 100% latex free.

Manduka PROlite Mat

RM389

- Standard: 4.0 lbs; 71" x 24"; 5 mm thick
- High performance in a lightweight form.
